

REVANTASOLAR[®]
ENERGIZING LIVES

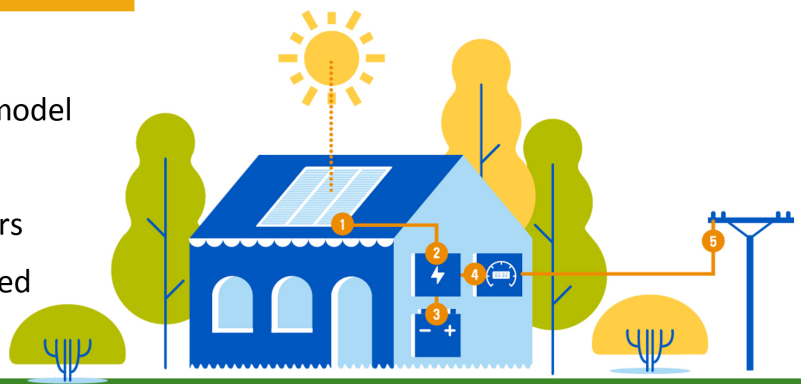

**Solar Rooftops for Institutions,
Residential Buildings and Trusts**

Revanta Solar is a leader in solar rooftop installations in India. Our team has full capability to provide on-grid solutions that will help save big in the long run. Solar is becoming an extremely attractive option for rooftops in India. Our team can help you with the best solar system which is reliable, efficient and hassle free.

Why Revanta Solar?

- 5-year entire system warranty
- Honest and transparent pricing model
- We want to help the customers
- Team of dedicated solar engineers
- Top class solar equipment installed
- 24*7 customer support

Some of the benefits include:

- 30 percent government subsidy on solar rooftop systems (or as applicable in the state)
- Significant reduction in electricity bills
- Pay back (ROI) of the entire system in 3-4 years and then free electricity for the rest of the life of the plant (about 25 years)
- Save yourself from the volatile and increasing electricity prices (Average tariff escalation of 8% from electricity companies)
- Reduce massive amounts of carbon emissions

** subject to Delhi jurisdiction*

50 units of conventional electricity generate 21 tons of Carbon dioxide in the atmosphere which is equivalent to burning 3 teak trees

Revanta Solar System Purchase:

Best for those who want:

- 30 percent government subsidy on the entire solar system
